

HARSHVARDHAN

CHANDRAVANSHI

FULL STACK DEVELOPER

OBJECTIVE

I am a Full Stack Developer. I have a passion for building scalable web applications and have experience in both backend and frontend development. My work focuses on creating efficient, high-quality solutions that meet industry standards. I'm eager to apply my skills in a dynamic environment and contribute to impactful projects.

EXPERIENCE

JAVA DEVELOPER INTERN (HULKHIRE TECH)

Jul 2024 - Aug 2024

Remote position focusing on Java development for Stripe Payment Integration for toycuddle.com using Spring Boot.

FULL STACK DEVELOPER INTERN (AMSTECH INCORPORATION PRIVATE LIMITED)

Aug 2023 - Feb 2024

Conducted Extensive POCs on JAVA FULL STACK. Done tasks like Database design, HTML/CSS pages, JSP creation, servlets and work in J2EE environment.

PROJECTS

Job-application

- Build a production-grade **microservices** application using Spring Boot, Docker, and Kubernetes.
- Created **RESTful** APIs with inter-service communication via **Eureka**, **RabbitMQ** and load balancing.
- Containerized services with **Docker** and orchestrated them on **Kubernetes** for scalability and resilience.

•
Stripe Payment Integration - One-Time Payment

- Developed a payment processing microservice using Spring Boot for one-time payments via Stripe
- Ensured secure communication and compliance with PCI DSS standards by using **Stripe's webhooks** and secure keys.
- Build a **reconciliation** logic to schedule payment status and expire payment at stripe end and update final status.

Advance EMS

- Created a Robust frontend with **React** with **Material UI** and Backend in **ASP .Net core** with **EF core** and **Identity framework**.
- Added Log in, Admin/Employee dashboards with chatroom, leave, payroll, announcement, attendance management etc.
